Value Added Services

- Kitting -- custom kitting capabilities of any scope, hardware, tooling kits
- Precision Machining and Custom fabrication to print, prototyping, low rate initial production, and full production capabilities
- Sheet Metal Fabrication
- Ergonomic Surveys -- on-site tooling recommendations to eliminate work place injury and fatigue
- Certification -- installation processes
- Custom cutting tools -- overnight service available
- Custom Tool Boxes -- FOD Boxes
- Custom Material Handling Carts

Industries Served:

- Industrial • Aerospace • Aircraft • OEM • Military/Government

FASTENERS, MATERIALS, AND HARDWARE

PEM® brand fasteners-- self-clinching, broaching, flaring, surface mount, or weld technology-- providing strong, reusable, and permanent threads and mounting points in thin sheet metal, P.C. board materials, and other ductile or non-ductile thin material

Blind threaded inserts designed to install quality threads in various substrates commonly referred as rivet-nuts or nut-serts

Adhesively bonded fasteners used on composite and metallic substrates to eliminate through hole and corrosive joints

Captive screws, rivet-less nut-plates, and panel fasteners for the aerospace and military markets

Domestic manufacturer of light, medium, and heavy duty composite and honeycomb fasteners.

PRODUCTS OFFERED:

MS27130	MS14210	M85069
MS27131	MS35914	M45938
NAS1329	NAS 1832 to 36	M63540
NAS1330	NAS 1056 and 57	6000820
MS14200	NAS42 and 43	

Alcoa Panel Fastener Series:

7500, 7900, 6010, 11438307, 10182440

Blind Nuts:

WBN360 WBN388
11438039 10274114

Click Bond Series:

CB, CN, CP, CS, JK

AEROSPACE AND INDUSTRIAL TOOLING

Ergonomic seating for manufacturing and assembly to improve productivity and safety awareness

Battery operated torque controlled and assembly tools

Quality tools for aerospace and aircraft production and maintenance

Aerospace tools including drill motors, rivet hammers, compression riveters, Spacematic® drilling equipment, and fastener installation tooling

USA Manufacturer of aerospace modular drilling and installation tools and kits

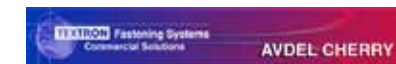

Innovative high quality fasteners, temporary fasteners and tooling for the aerospace industry

Torque tool specialists in hand tools, power tools, pneumatic tools, and torque analyzers

Pneumatic tooling for industrial and aerospace markets including drills, assembly, torque, finishing, and grinding equipment

Aerospace installation tooling for blind rivets, blind bolts

Leader in the design and manufacturing of precision fasteners, fastening systems, and assembly tools. Serves both aerospace and industrial markets

Full line of custom Polycrystalline Diamond (PCD) and carbide tools including drills, reamers, end mills, port tools, and micro tools

Aerospace Tooling

Complete line of pneumatic tooling for assembly and manufacturing

Building Simple, Durable, and Reliable Power Feed Motors

About Enfasco

Since 1978, Enfasco continues to be a major supplier of production fasteners, hardware, and tooling to the OEM, Commercial, Industrial, Aerospace, and Defense Industry. Enfasco also supports many distributors and Vendor Managed Inventories. Our inventory can be found on ILS, Parts Base, and www.enfasco.com. Our technical outside sales team is available to support and service all of the products we offer while our inside sales staff has extensive experience with our entire product line and are eager to respond to your specific needs.
